

# INDIAN RIVER STATE COLLEGE

Institutional Advancement Department

High school students from the Clark Advanced Learning Center refurbished and donated computers to Big Brothers Big Sisters. Pictured from left to right are Jesse Torres, Zachary Prueger, Ethan Felder and Trey Kucharski.

## **CLARK ADVANCED LEARNING CENTER COMPUTER CLUB DONATES TO LOCAL CHARITY**

With the season of giving in full swing, Computer Club students at the Clark Advanced Learning Center at the IRSC Stuart Campus refurbished and donated 10 computers to Big Brothers Big Sisters of Martin and Palm Beach Counties.

According to the club's advisor, Lynn Krieger, the students conceptualized the project and initiated contact with Big Brothers Big Sisters to arrange the donation. The students were eager to practice the refurbishment skills acquired through dual enrollment computer science courses in a way that would give back to the community.

The students personalized the project by delivering computers to the families designated by Big Brothers Big Sisters. Said one of the recipients, "This will make such a difference in my school work in the coming years!"

The Clark Advanced Learning Center, an A-rated public charter high school, serves about 250 Martin County students in an enriched small school learning environment. The Clark is the top ranked high school on the Treasure Coast and in the top ten high schools in Florida based on the state's high school grading system. Clark students have the opportunity to earn college credits for free through dual enrollment with the convenience and advantages of the IRSC Chastain Campus. Students engage in internships related to the career interests and participate in customized learning and real-world projects that inspire motivation and achievement.
